ALLOWANCE

This non-final action is in response to Applicant's amendment filed on 2/9/2010. Applicant amends claims 1, 7, and 9 and previously cancelled claims 2 and 10. Accordingly, Applicant presents claims 1, 3-9, and 11-14 for further examination.

Terminal Disclaimer

The terminal disclaimer filed on 9/7/2010 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 7725596 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 1, 3-9, and 11-14 are allowed.

The following is an examiner's statement of reasons for allowance:

The examiner believes that the prior art does not teach, suggest, or render obvious the unique combination of features found in independent claims 1, 7, and 9. Applicant's previous amendment filed on 2/9/2010 clarified that the router stores two different type-of-service distances where the first distance represents a distance between one or more information object repositories to an address of a client. Applicant's current amendment adds an important feature detailing that the WILD protocol comprises a WILD update message that includes a basic routing update, a list of type-of-service distances from the Web caches to destinations, and a list of type-of-service distances from the redirecting Web routers to the destinations.

By the combination of these elements the independent claims now clearly and distinctly describe the important features of the content distribution and anycast resolution system. Furthermore, the prior art gives no indication that it would have been obvious to one of ordinary skill in the art at the time of the Applicant's invention to resolve anycast addresses and select information object repositories in the specific fashion presented in Applicant's claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DOHM CHANKONG whose telephone number is (571)272-3942. The examiner can normally be reached on Monday to Friday [10 am - 6 pm].

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thu Nguyen can be reached on (571)272-6967. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
